

# INDEX TO FIFTEENTH VOLUME.

## Abnormal Swarming—

cause of.....	190, 257, 258, 359, 415
how prevented.....	215, 369
in England.....	199
in France.....	257, 278
instances of.....	129, 156, 224, 228, 230, 267, 367
reasons for.....	258

## Adulteration—

Dadant's report on.....	413
efforts of the Bee Journal against.....	178, 249, 293, 389
of butter.....	5, 149, 274
of honey.....	4, 49, 50, 56, 62, 107, 121, 148, 259, 273, 556
of sweets.....	14, 69, 532
petition to Congress against.....	14, 16, 51, 70, 101
State legislation against.....	51, 179, 194, 274
test of, for honey.....	296

## American Honey—

American packages preferred.....	389
appointment of U.S. Commissioner on.....	532
in England.....	290, 349, 393, 517
Isham box preferred.....	240
patronized by the Queen.....	240
prejudice in England against.....	489
Prince and Princess of Wales' interest in.....	338
took first prize in England.....	338, 393

## Apiary—

ants investing the.....	298
apiarian or apiarist?.....	445, 446
best location for.....	21, 23, 33, 34, 179, 527, 536
Davis' management of.....	39
destroyed by a bear.....	486
destroyed by fire.....	424, 488
management of.....	32, 167, 209, 318, 475, 549
of Dr. Blanton.....	441
overstocking a locality.....	27, 83, 257
pleasant surroundings for.....	351
profits of, discussed.....	448
propolis dust and bronchitis.....	216
protection against human robbers.....	10, 53, 110, 129
register and book for.....	429
Valentine's bee yard.....	79, 527
wind breaks for.....	79, 527
which way hives should face.....	131
work for August.....	350

## Bee Enemies—

<i>Asilus missouriensis</i> .....	399
cow-killer.....	464
cut-worm moth.....	469
frogs.....	469
king birds or bee martins.....	128
mosquito-hawk.....	359
of Texas.....	355
<i>Phymata-erosa</i> .....	368, 462
shrew or bee mole.....	108, 161, 216
small black ants.....	355, 420, 496
specimens desired.....	245
sphinx-moth.....	369
spiders.....	369
<i>Stivetrus-diana</i> .....	370
swallows.....	56
tallor bee.....	464
the bee-keepers' friends.....	521
wasps.....	470

## Bee Feeders—

atmospheric feeders.....	162, 216
Carpenter's combination.....	100
Cheaney's.....	496
Dr. Butler's oyster can.....	531
Given's home-made.....	100
Huntley's hollow-frame.....	145
Lynch's home-made.....	228
trough feeder used in 1858.....	372

## Bee-Keeping—

American, superiority of.....	205, 269
as a specialty.....	506
Austrian Crown Prince and.....	291

## Bee-Keeping—continued.

can it be made profitable?.....	7, 395, 526
described, in Alabama.....	306
Algeria.....	473
Alsace and Lorraine.....	152
Australia.....	151
Canada.....	401, 410
China.....	8
Cuba.....	8, 204
Cyprus.....	236
Denmark.....	151
Egypt.....	405
Europe.....	489
France.....	8, 205, 269
Idaho.....	551
Kentucky.....	267, 552
Mississippi.....	545
North Carolina.....	547
Northern Michigan.....	442
the South.....	286, 303, 357, 408, 453
does it pay?.....	396
fallacy of "luck" in.....	394
humane system of.....	343
its magnitude.....	343
success in.....	271, 275, 317, 318
uncertainty of, as a business.....	555

## Bee Journal—

appreciated abroad.....	8, 103, 204, 205
condense articles for.....	98
credit system abandoned.....	482
exclusion of personalities.....	98
indorsed at home.....	9, 10, 15, 52, 80, 81, 126, 127, 129, 130, 131, 154, 156, 157, 158, 199, 224, 227, 229, 230, 231, 247, 248, 251, 259, 265, 268, 297, 298, 300, 356, 374, 375, 420, 423, 424, 441, 454, 461, 463, 466, 468, 469, 485

## Bee Literature—

Alsatian Bienen Zuechter.....	53
Austrian Bienen Zeitung.....	152, 200
Bee-Culture, in German.....	326
Bee-Keepers' Exchange.....	146, 200
Bee-Keepers' Instructor.....	32, 149
Blessed Bees.....	7, 190, 373, 446
Cook's Manual.....	9, 36, 129, 136, 456, 462
Emerson's Binders.....	352
Herr Gravenhorst's work.....	204
Hunter's New Manual.....	482
L. A. Collins's work.....	472
Novice's A. B. C. of Bee-Culture.....	246, 482
Our Homes, Criticism of.....	7, 86
Quinby's New Bee-Keeping.....	245
Secrets of Bee-Keeping.....	341
Signor Sartori's work.....	103
Western Honey Bee.....	146

## Bee Pasturage—

described—alder.....	405, 500
alsike clover.....	220, 496, 502
American pennyroyal.....	405, 426
aster.....	501, 506, 537, 540
bay.....	405, 501
basswood.....	32, 229, 457, 501
bergamot.....	540
bitter weed.....	544
blackberry.....	405
black gum.....	501
blue sage.....	263, 404
boneset.....	461, 466
brist.....	474
buckwheat.....	161, 188, 441, 457, 502
butterfly weed.....	546
button bush.....	501
cabbage palmetto.....	405
catalpa.....	502
catnip.....	502
chinnerry tree.....	501
chrysopsis graminifolia.....	501
cleome.....	72, 372, 418, 489
clethra alnifolia.....	56, 249
cotton bolls.....	226, 501
cow peas.....	405
cud weed.....	536
culver's root.....	374
dew berry.....	405
eucalyptus.....	4
euonymus.....	364

## Bee Pasturage—continued.

eupatorium.....	559
euphorbias.....	467
figwort.....	424, 459, 462
fruit trees.....	501
golden rod.....	405, 464, 468, 484, 501
hawthorne.....	501
hemp.....	84
holly.....	501
honeysuckle.....	423
hoarhound.....	405
huckleberry.....	501
Indian currant.....	538
Japan privet.....	501
lemon.....	405, 501
locust.....	501
magnolia.....	465, 501
mammoth Russian sunflower.....	536
maple.....	405
mellilot clover.....	56, 372, 418, 421, 422
mesquias japonica.....	9, 52, 85, 84
mignonette.....	270, 468
milk weed.....	123, 426
mint.....	467, 502
mock orange.....	501
morning-glory.....	418
motherwort.....	424
mountain mint.....	374
mustard.....	37, 75, 157, 542, 536
oak.....	405
okra (gumbo).....	342
orange.....	405, 501
partridge pea.....	405, 425
peach.....	245, 501
persimmon.....	501
petunia.....	418
raspberry.....	167, 501, 539
red bud.....	545
red clover.....	330
red top grass.....	466
saw palmetto.....	405, 501
smooth water leaf.....	302
sneeze weed.....	468
Solanum Virginianum.....	425
sourwood.....	501
Spanish bayonet.....	466
Spanish needle.....	496, 470
spider plant.....	84
sumac.....	501
swamp woodbine.....	545
teasel.....	372
ticksweed.....	470
trumpet-weed.....	425
tulip.....	501
tyty.....	501
varnish-tree.....	501
vervain.....	429, 464, 467
virgin-bower.....	425
white clover.....	23, 32, 229, 230, 501
white sage.....	263, 371
willow.....	501, 539, 545
wild cherry.....	501
wood sage.....	374
yellow jasmine.....	500
desirable to have continuous.....	161
linden tree 690 years old.....	103
should be provided.....	295, 413
statement of, in Florida.....	404
in Kentucky.....	470
in the South.....	500
in Wisconsin.....	31
sugar in the nectar of flowers.....	164

## Bees—

abnormal distension in winter.....	277
albino, not a distinct race.....	373
a cat's experience with.....	345
are eggs producing queens and workers alike?.....	557
Apis Americana.....	567, 568, 558
a worker's account of himself.....	362
careful handling of.....	60
clustering outside of hive.....	232, 301
crossing Italians with apis dorsata.....	475
Cyprian race described.....	597
deserting their hives.....	559
different varieties of.....	73
discharging feces in the hive.....	308
dislike all kinds of oils.....	351
distance they go for forage.....	300

**Bees—continued.**

do not store honey in warm climates.....	204
do not make honey.....	346
do they injure buckwheat?.....	376
dress while handling them.....	60
effects of cold on.....	26
experiments with eggs and larvae.....	443, 485
feeding on oil cake.....	8
food of the larva.....	278
form of the cell of.....	361
four-banded workers.....	330
great bee of Java.....	506
how bees take liquids into their stomachs.....	492
how soon does loss of the sting cause death?.....	23
human breath offensive to.....	297
in Shenandoah Valley.....	352
lazy bees—popular illusions.....	363
length of tongue in different races of.....	493
little Johnny's composition on management during June.....	346
marking their location.....	294
monstrosities among.....	498
moving eggs from one cell to another.....	370
new method of hiving.....	106
notes from Georgia.....	354
production of, checked.....	354
qualities in.....	520
relative merits of native and Italian.....	534
senses of.....	344
smothering of.....	448
sting of the worker.....	542
that saved a kingdom.....	344
the bee of the future.....	320, 367, 505, 538
the next progressive step in.....	507
tongue of.....	490
uncapped brood.....	83
Virgil and the honey-bee.....	401
why bees work in the dark.....	386
wild bees and the Indians.....	345

**Bee Stings—**

fear of, overcome.....	347, 363
for rheumatism.....	215
remedies for.....	23, 302, 398, 463
sting of the Reduvius.....	463

**Beginners—**

advice to, 168, 206, 267, 271, 318, 360.....	564
experience of.....	128
pleasant employment for.....	525
scientific management of the apiary necessary.....	156, 157, 268, 318, 450, 525, 564
who should keep bees.....	27, 214, 267, 450, 525, 561

**Beeswax—**

cheap extractor for.....	211
how to cleanse.....	302, 561
production of.....	326
the uses of.....	345

**California—**

honey crop, failure of.....	368, 403, 440
honey resources of.....	73, 463
honey shipments from.....	361, 403
sun evaporator used in.....	78, 155, 260, 346

**Candied Honey—**

candied in the combs.....	312
demand for, increasing.....	447
frames of for feeding bees.....	193
preferred by the Jews.....	296
tin cans for.....	18
will the pure always granulate?.....	18, 80

**Colonies—**

how to get them strong early in the spring.....	205
made by division.....	11, 29, 78, 85, 115, 247, 366
nuclei, how formed.....	215
two in one tree.....	216

**Combs—**

arrangement of.....	456
built from the bottom up.....	154, 220, 231

**Combs—continued.**

built outside the hive.....	10
cleansing.....	97, 156, 221, 246
compelling bees to build worker.....	104, 155, 231
how to extract partly filled sections.....	167
how to get them built.....	15, 242
melting of.....	22, 537
pruning old combs.....	84
straight, how to procure them.....	224

**Comb Foundation—**

advantages of.....	26, 28, 34, 76, 112, 160, 163, 173, 190, 201, 210, 220, 302, 348, 367, 572, 395, 418, 472, 522
"bulging" of.....	248
comparative merits of different kinds.....	340, 398, 523
containing wire.....	6, 12, 54, 76, 227, 249, 250, 341, 356
death of the inventor of.....	304
extra thin described.....	5, 54, 98, 146
how much to use.....	272
how to fasten to frames.....	76, 102, 211, 272, 348, 350, 368
how to make.....	12, 23
its uses for surplus honey.....	12, 23, 273, 275, 367, 472, 522, 561
machine for fastening starters.....	150, 197
made from plates, wired.....	150, 251
made on tin foil.....	97, 150, 252
made on wood.....	103
Mrs. Dunham's.....	101
silk threads used in.....	249
will bees always draw out the thick?.....	216, 522
with high side-walls.....	33, 242

**Comb Honey—**

assort and label it.....	303, 483, 560
compared with extracted.....	454, 547
effect of dampness on.....	30
how to prepare for market.....	174, 303, 314, 350
how to produce.....	31, 32, 174, 303, 350
keep in a warm place.....	174, 303
leakage prevented in.....	350, 360
one solid foot.....	252, 448
rack and cases for sections.....	127
salable and attractive packages.....	260, 280, 292, 315, 400, 560

**Conventions—**

arrangements concerning.....	246, 534
benefits of.....	20, 302, 559
Report—Addison Co., Vt.....	178
Albany Co., N. Y.....	318
Austro-German.....	56, 278, 474
British.....	386

Western Illinois & Eastern Iowa.....	20, 200, 411, 556
West Virginia.....	554

**Cyprian Bees—**

superiority of.....	64, 507
home habits of.....	204

**Diseases of Bees—**

cause of.....	30, 155, 178, 250, 259, 262, 273, 298, 299, 308, 312, 374, 423, 502, 504
dead brood in cells.....	425
dysentery as a bee disease.....	517
dysentery.....	101, 116, 130, 151, 150, 156, 158, 223, 246, 262, 356, 517, 535
remedies for.....	158, 262, 364
epidemics among insects.....	197
foul brood.....	130, 300, 364, 365, 461, 502
remedies for.....	324, 502, 504
experiments with.....	450
fungous growth of brood.....	421

**Division Boards—**

feeder in.....	266, 273, 274
no patent on.....	300
use of paper for.....	85

**Drones—**

birds preying upon.....	389
early production of.....	368, 371
how to prevent the rearing of.....	21
improved race of.....	6
influence of, on progeny.....	42
reared in worker cells.....	166
standard for.....	10
wrong-end to, in cells.....	419

**Dzierzon—**

and Berlepsch.....	475
invested with Russian badge of honor.....	438, 474
theory of, discussed.....	325

**Editor—**

as Representative to Europe.....	198, 291, 292, 338, 366, 388, 391, 392, 434, 471, 472, 474, 489
in Continental Europe.....	433
in England and Scotland.....	338, 392

**Exporting Honey—**

to England.....	290, 292, 338, 349, 389, 393, 489, 517
to Germany.....	84, 102
to Spain.....	326

**Extracted Honey—**

barrels for.....	248, 547
compared with comb honey.....	454
cups for marketing of.....	272
how to get from cappings.....	82
how to produce.....	32, 313
how to sell.....	19, 217, 514, 517
how to ship.....	30, 314, 516, 547
more profitably produced than comb honey.....	395, 448, 515
preparing for market.....	19, 314, 447
rules for production of.....	274
should be capped before extracted.....	73, 396, 357
sun evaporator for.....	78, 155, 269, 346, 360
what vessels to use for.....	20, 404, 447, 516, 547

**Extractor—**

does it pay to use.....	367, 496
Everett's.....	57, 274
Muth's.....	196, 269, 437
new one for 6 frames.....	404
patents on.....	16
triangular comb-basket for.....	100

**Feeding Bees—**

bees carrying candy out of hives.....	547
candied honey for.....	193
cider for.....	85, 249, 460
honey best for feeding.....	178, 216
how to prepare feed.....	153, 261, 469
in early spring.....	366
intoxicated by decaying fruit.....	485
milk, eggs and honey for.....	152, 229
moist brown sugar for.....	228
mollasses and syrups for.....	107, 227
profitable.....	152, 201, 205, 216, 222, 558
sorghum for.....	85, 460, 470
sugar syrup for.....	107
to stimulate.....	574, 275
when not gathering honey.....	273

**Fertile Workers—**

experiences with.....	290
-----------------------	-----

**Floating Apiary—**

description of.....	24
failure of.....	289, 528
misrepresentations about.....	394

**Frames—**

all of one size desirable.....	269, 272
closing space at ends of combs.....	538
Colvin's guide frames.....	104
distance between.....	272
empty frames, use of.....	357
holder for.....	251, 384
plan of holding ends together.....	300
uniformity desired in.....	163, 216
way they should run.....	128

**Glucose—**

adulteration of honey with.....	4, 49, 50, 69, 72, 76, 121, 163, 171.....
analysis of.....	124, 159
condemned for feeding bees in Europe.....	8, 118, 120, 160, 203
condemned for feeding bees in America.....	4, 72, 77, 79, 101, 107, 118, 125, 160, 161, 171, 173, 221, 241, 291, 295.....
its use for feeding bees approved of.....	124, 225

**Hives—**

Armstrong's.....	54, 100, 167, 231, 301
an extraordinary one in Ireland.....	347
bees discharging their feces in Brown's.....	157
Caldwell's register for.....	99, 122

how to distinguish.....	362
how to prevent.....	397, 537

**Robbers—continued.**

human .....	243
instances of .....	298, 459, 462
maddened bees .....	245

**Shipping Bees—**

moving in a spring wagon .....	499
preparation for .....	7, 17, 117, 122,
244, 304, 361, 368, 447, 459 .....	564

**Separators—**

desirable .....	21, 49, 313, 560, 561
how long can they be used ? .....	21
how to cleanse .....	167
not for brood chamber .....	224
paper unsuitable for .....	465
size of .....	146
temporary ones .....	249

**Smokers—**

Bingham's .....	71, 99, 147, 156, 215,
274, 302, 390, 437 .....	458
cold blast, useless .....	99, 260, 535
Ferris' .....	101
fuel for .....	232
German .....	535
history and use of .....	316, 365, 458,
484 .....	495
Shuck's .....	535
Scovell's .....	147, 535
largest sizes preferred .....	260

**Spring—**

dwindling in .....	156, 157, 219, 227,
228, 301 .....	548
management .....	173, 218, 219, 497
prevention of dwindling .....	123,
213, 219, 251, 412 .....	548

**Statistics—**

bees, honey and wax .....	25, 33, 54,
55, 85, 44, 345, 354, 391, 415 .....	532

**Standard of Purity—**

for drones .....	10, 63
for queens .....	111, 174
for workers .....	61, 63

**Swarming—**

how to prevent .....	82, 219, 227, 270,
355, 369, 413, 416 .....	524

**Swarming—continued.**

natural and abnormal .....	257
natural vs. artificial .....	176, 221
singular experience in .....	351

**Swarms—**

catcher for .....	242, 248
catching .....	10, 17, 166, 248, 261, 308, 369
does it pay to return ? .....	24
does the queen lead ? .....	25, 256
leaving their hives .....	351, 422
made by dividing .....	11, 29, 78, 85,
115, 247, 366 .....	553
management of .....	21, 31, 305, 553
need careful watching .....	407
returning first .....	258
second, how to prevent .....	177
stray swarms in Texas .....	277
thirty on one apple tree .....	349

**Transferring—**

combs turned while .....	273
eggs from one cell to another .....	224
how to do .....	454, 484
when to be done .....	406, 473

**Uncapping Knives—**

Bingham & Hetherington's .....	71,
389, 437 .....	495

**Uniting Colonies—**

Doolittle's plan of .....	484
how to do it .....	229, 254, 407, 444

**Ventilation—**

is it necessary ? .....	30, 32, 156, 223,
545 .....	
closed by snow .....	360

**Water for Bees—**

is it necessary ? .....	245, 248, 403
sulphur water .....	128, 153

**Wild Bees—**

introduction into America .....	345
nature and habits of .....	226, 311

**Winter Bee Houses—**

description of .....	107, 126, 129, 153,
155, 219, 251, 358, 374, 460 .....	468

**Wintering Bees—**

amount of honey necessary .....	225
222 .....	274
bag hive for .....	157, 297, 298,
burying in a cave .....	300, 412 .....
